Allowable Subject Matter

1. Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art neither anticipates nor renders obvious a spindle unit of a machine tool as claimed in independent claim 1, specifically wherein the combination of limitations includes at least two passages having inner threads and formed in the spindle communicating between an outside of the spindle and the oil pool chamber, each of said passages being formed at the forward end of the spindle, as is currently claimed.

Applicant's arguments were persuasive, and the amendment to the claims over comes the prior art as detailed in Applicant's response dated 17 August 2007. The closest prior art is as detailed in the previous office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
